Grasshopper is one of the best virtual phone solutions available today because it is powerful and easy to use. However, there are many alternatives on the market that offer features Grasshopper does not. We took a look at the best alternatives to Grasshopper on the market and rated them based on prices, features and usability. Top 6 Grasshopper Alternatives 2020 Grasshopper Alternative Best for (Best Overall) Teams, Wanting a free alternative with strong, basic business features that want a virtual phone number combined with a complete business phone system Organizations that want an alternative to Grasshopper with monthly bundles of minutesCompanies looking for a phone service that supports international numbersBusinesses that need an alternative to Grasshopper, which includes integrated facsimile communications looking for a call center solution that works on desktop devices as well as on smartphones, which Grasshopper Alternative Is Suitable for You? As we rated Grasshopper Alternatives In order to be a viable alternative to Grasshopper, a competitor's phone system should make it easy for small business users to call, text, and check voicemail. However, the best alternatives also maintain a high quality call and offer advanced features such as auto-service personnel while remaining at an affordable price. Based on these factors, we recommend Google Voice to the majority of small business users looking for an alternative to Grasshopper. Google Voice provides an unlimited number of internal calls and text messages for free. It also provides a local phone number almost anywhere in the United States. It is also exceptionally easy to use. However, this may not be the best option for you. Google Voice: Best Common Grasshopper Alternative for Small Business Google Voice is a free virtual phone service provider that comes with unlimited internal call, SMS and voicemail. The service, which is free, also offers customers a toll-free local phone number almost anywhere in the United States. Google Voice is the main option, but the fact that it's free makes it one of the best alternatives to Grasshopper on the market. No automated companion Lets you record and save callsDoes not offer multiple extensions supportYY you can choose numberDoes not offer free numbers Google Voice Pricing VoIP app: Free app for use on desktop or mobile device. International calls: Priced from 1 cent per minute. Google Voice Features Call Screening: Welcomes subscribers and asks them to identify themselves before passing this information along with you. Call management: Comes with a full set of call handling tools such as call forward, block dumb, hold and more. Phone numbers: gives you the option to choose a free local phone number for almost any area code in the country. This is ideal: You can either take on the identity of the area in which your company is located, or you can appear as if your business is set up in another part of the country. For more feedback, check out our User Feedback page. RingCentral: The best alternative to grasshopper with a full RingCentral VoIP system is the Voice for Internet Protocol (VoIP) phone service, which provides features such as unlimited call, voicemail, and automated attendant. RingCentral offers plans starting at \$19.99 per user per month on an annual basis and offers advanced features such as video chat, file sharing, and more. It is ideal for growing teams who want a powerful business phone system that helps their overall communication workflow. Doesn't require an existing expansive phone line compared to GrasshopperSupports video conferencing up to 200 people - free numbersma be a more reliable solution than you needOffers file sharing in addition to the voice call RingCentral Pricing Multiple tariff plans: Range from \$19.99 to \$49.99 per user, per month for two to 19 users on an annual basis. Available discounts: Volume discounts are available as you add more users. In addition, RingCentral offers those in the K-12, health care or non-profit industries free service for three months. RingCentral Features Automated Companion: All versions of RingCentral offer automated attendants to greet subscribers and route them to the expansion of their choice. Call management: RingCentral comes with controls for block call, forward, hold and more. Phone numbers: The service gives you the choice of taking either a local or toll-free phone number with each new account. Go to our RingCentral user feedback page for more feedback. Phone.com: The Best Grasshopper Alternative for Vanity Numbers Phone.com is a grasshopper alternative that provides companies with a custom vanity number as well as other features such as automated attendant, voicemail, and more. It's good for teams that want an individual phone number like 1-800-FLOWERS that is both new and easy for your audience to remember. Not offering international numbers in all locations will allow you to pay for the minutes you use Lacks multi-level auto-serviceMatches Grasshopper for features Phone.com Pricing Subscription Price Plans: Monthly and annual plans range from \$22.99 to \$27.99 per user extension for unlimited call. Pay as you-go: Phone.com also offers flexible pay-as-you-go plans that cost between \$12.99 to \$39.99 per month depending on the number of minutes purchased. Phone.com features automated attendant: Phone.com plan offers an automated companion similar to those offered by Grasshopper. Call management: Phone.com offers the same range of control modules that and other business telephony systems, making it a direct alternative to Grasshopper in comparison one-on-one. Phone numbers: Phone.com offers free and local phone numbers just like Grasshopper. However, it differs from Grasshopper in the sense that it has a much more intuitive module for choosing individual vanity numbers such as 1-800-FLOWERS. For more information, Phone.com to our user feedback page. Users: Best Grasshopper Alternative for International VirtualPhone.com Numbers, which starts at \$9 a month, is a phone service that provides users with virtual numbers from more than 100 countries. On top of this, it offers unlimited extension, voicemail and an automated attendant. The platform's robust feature set, along with its low-priced plans, has made it a good alternative to Grasshopper for companies that do business internationally. VirtualPhone.Com StrengthsVirtualPhone.Com WeaknessesComparably Evaluated Plans Noncompetitive User InterfaceOfferication Local, Free and International NumbersMa requires an additional 3-sided solution for faxing supportive text messages and conference calls VirtualPhone.com Pricing Free Starter Plan: VirtualPhone.com offers 100 minutes or texts for free. Subscription Price Plans: VirtualPhone.com offers monthly plans that range from \$9 overall to \$499 per month. Payment as payment: The service charges 1.9 cents per minute without a monthly subscription. VirtualPhone.com the Automated Companion feature: VirtualPhone.com provides pre-recorded greetings for your calls in addition to the automated attendant. Call Management: The system includes standard call management modules such as forward call, hold and lock, and telephone conferences. Phone numbers: VirtualPhone.com gives you the option of taking a number to another country. eVoice: Best Grasshopper Alternative for Faxing eVoice is an alternative to Grasshopper, which comes with integrated faxing capabilities on top of business telephony features such as call rechecking, text messages, and auto-accompanying for as little as \$6.25 per user per month. This makes eVoice a solid choice for real estate agents, freelancers and other types of professionals who need better fax functionality than what Grasshopper offers. Recording call and spending extraSupports fax, as well as business call Vanity and international numbers are not freeKustomer service can be slow to answer eVoice Pricing Pricing Plans: eVoice offers four different price plans ranging from \$6.25 to \$16.25 per user per month, but the lowest level of the plan does not support incoming faxes. Outgoing faxes: Worth an additional \$1.95 per user per month. eVoice Features Auto-Accompanying: eVoice has an auto- accompany that welcomes your customers and routes them to the expansion of their choice. You can choose the default greeting, record a new one, or have a professional voice-over artist do so. Call management: You can block, route and on-screen calls using the caller ID feature, making eVoice a direct competitor to Grasshopper in terms of Calls. You can also record calls for an additional fee. Phone numbers: eVoice allows you to choose between a local or a free phone number. Vanity and international rooms are also available, but those have an extra monthly fee depending on what you want. Talkroute: The Best Grasshopper Alternative for Call Center Talkroute, which offers plans starting at

\$19 a month, is a competitor that offers several unique features that work well for call center employees. It comes with live call transfers, call queues, and reports that provide all kinds of data points about your staff call activities. It is ideal for any business that wants what constitutes a virtualized call center function in their phone system. Not allowing you to select an international numberFeatures call queue and live call transfer record is only available on premium plans.Lets you use your own to host music Talkroute Pricing plans: Talkroute has three small business plans that range from \$19 to \$59 per month. Supplements: Additional phone numbers, users or voicemail boxes can be added to your package for \$5 per month. Talkroute Features Auto-Accompanying: Talkroute offers auto-accompanying like other systems, but also includes a queue call, meaning that when a large number of people call right away, they will be connected in the order of first come, first serviced basis. Call Management: Talkroute goes beyond Grasshopper and other solutions by offering features such as live call transmission. Keep the music: You can choose from different music retention files or even upload your own files to the solution. Phone numbers: Talkroute offers both free and local phone numbers, making it even with Grasshopper for that matter. However, it lacks international capacity in the area of numbers, such as VirtualPhone.com. Bottom line: Grasshopper Phone Alternatives Grasshopper is a fantastic virtual phone system, but it's not for everyone. There is no shortage of useful solutions in the market that do certain things better than Grasshopper. This includes things like fax, call center functions and more. We recommend that anyone looking for an alternative to Grasshopper consider Google Voice. It's a free, no-frills solution that comes with features that lack paid systems like a standard record call. All you need is a free Google account. Visit Google Voice Voice used grasshopper mower parts for sale. used grasshopper lawn mower parts
